Projects

Meds Vending Machine Web App	RS UMMI, Bogor 01/2025 - 06/2025
<p>This project is the development of an automated Medicine Vending System for RS UMMI hospital, designed to eliminate pharmacy queues and streamline the prescription pickup process. The system allows pharmacists to input prescription data and place prepared medicine into a secure locker, which triggers an automatic WhatsApp notification with a unique QR code to the patient.</p> <ul style="list-style-type: none">Elimination of physical patient queues at the pharmacy.Creation of a complete and secure digital log for every prescription order.	
Halalify.id	Halalify.id, Jakarta 07/2025 - Present
<p>Halalify.id is an integrated digital platform being built from scratch to serve as a comprehensive ecosystem for Halal businesses in Indonesia. It directly tackles the core problem of complex and confusing bureaucracy faced by entrepreneurs by offering streamlined services</p> <ul style="list-style-type: none">A simplified and demystified Halal certification process for business owners.	
Exora.id	PT. Langit Raya Eksporindo, Jakarta 06/2025 - Present
<p>Exora.id is a comprehensive digital platform designed to act as a trusted partner for Indonesian businesses, aiming to simplify the complexities of international trade and empower them for global competition.</p> <ul style="list-style-type: none">Establishment of Exora.id as a leading and trusted digital logistics partner in Indonesia.
